

Teachers Day

No matter what, the Coronavirus pandemic has not put all event/festivals at a respite at Rudrappasamy School. The School has witnessed one of the most significant event after the online classes commenced on 22nd June 2020.

Our first Virtual Teachers day was celebrated on Saturday, 05.09.2020. The team "Science Stars" composed the occasion for all the teachers on Zoom. The program began with the summoning of the favors of the all-powerful. All the teachers were invited and a discourse on the significance of Teacher's day was given. The team science stars, all students of grade VI and VII, partitioned the teachers into two groups and led different games on the web. At last group A rose as the champ and the program finished with a statement of gratitude. The session was so engaging and everybody were so immersed in it that we neglected to catch those live minutes, however then we don't lament as it will stay in our souls as a memory for eternity.
