

## **Road Safety Program**

The Road Safety Awareness session was conducted virtually by the Tamilnadu Police Traffic Warden's organisation on 30<sup>th</sup> January, 2021.

The aim of the program was to create awareness among students and to sensitize them to important road etiquettes like using safety helmet, seat belt, following road signs, knowing the importance of not using mobile phones while driving, etc...

Mr. Rajan Sanketi & Mr. Vivek P Dhanda with their team explained the basic traffic rules to be observed while driving on road through a Power point presentation, to acquaint everyone with traffic rules.

A short video was also shown to the students on how to avoid road accidents.

At Rudrappasamy School, it is necessary that the Children and their parents should know the importance of traffic rules, road signs, traffic signal, as we believe that the role of the education sector is to include road safety modules in school curriculum, to have sessions to impart road safety education with the help of experts, traffic police, doctors and other professionals.

The students were enthusiastic towards this webinar and could easily undertake the instructions of importance of driving.
