

## **VANMAHOTSAV WEEK**

Van Mahotsav, a week-long festival of tree plantation is organised every year in the first week of August across India when millions of trees are planted. In an earnest attempt to lend a green touch to the school environment and sensitise students about their role in conserving it, Rudrappasamy School celebrated Van Mahotsav from 1st week of August 2022 in the School campus.

The celebration was an ideal opportunity to instil the value of social responsibility amongst students towards safeguarding trees and forest cover. The focus of the celebration was on building a personal connect between the students and trees through a process of experience, reflection and creation, through various activities.
